PROJECTS

I've completed various frontend projects recently to enhance my skills. These projects helped me gain practical experience in areas such as HTML, CSS, Bootstrap, Sass, Photoshop, Figma JavaScript, and responsive design. Here's a list of the projects.

PERSONAL PORTFOLIO

GitHub | Live Server

In my portfolio, I have shared my recent projects, to build this portfolio, I've used HTML5, CSS3, Bootstrap, and jQuery. I designed the User Interface using Figma before implementing the codes. The website was designed to be visually appealing, easy to navigate, and optimized for different devices.
Technologies used : HTML, CSS, Bootstrap, JavaScript, jQuery

HUNT

GitHub | Live Server

This website is the last project of my web design course where I have applied my designing knowledge. The project involved designing and developing a website that could be accessed on multiple devices and screen sizes, including desktops, tablets, and smartphones.
Technologies used : HTML, CSS, Bootstrap, JavaScript, jQuery plugin.

IKNOW THEMEFOREST

GitHub | Live Server

This project involved cloning a template from Themeforest using HTML, CSS, Sass and Bootstrap. The purpose of this project was to practice building responsive layouts and to gain a better understanding of how popular templates are designed and structured.
Technologies used : HTML, CSS, Bootstrap, SASS, JavaScript.

FIGMA PORTFOLIO

Live Server

A personal project to practice designing user interfaces using Figma for skill growth and gaining experience.
Technologies used : FIGMA
